You will need 1 liter of alcohol per batch (bag) that you order for your event. If you have a Half Gallon bottle, use just half of that half per batch. Always check with the store where you purchase to make sure you could return any un-opened item.

Should I get the best brand name product available?

It is not necessary to buy the best, that is up to you. Nobody will be able to tell what is in the mix because our mixes are very flavorful. Just buy what's on sale and have fun!

Do you require a deposit?

We do require a deposit, it will be explained on the invoice that you will receive by email with a pay link included to put your credit card in to secure your machine, and the balance paid based on the total amount of mix used, to be paid in full at the conclusion of your event.

Do I need ice too?

NO. All you do is add the mix, water, and alcohol of choice...our machine makes the magic happen!

How long does it take to make frozen drinks?

From the very first batch, we must allow a minimum of 2 hours prior to your event to ensure that everything will be perfect. After that you will keep another batch in the refrigerator and refill often with cold product into the already frozen product in the machine, never emptying and never refilling, just adding to.

What do I need to supply?

When we show up you will need to have these items ready:

- Just the alcohol of your choice and a water source
- Electricity -- DEDICATED standard 110 circuit with 20 amps.
- This means NOTHING else should be on this circuit or else the margarita machine WILL NOT WORK Properly. Pick a place that is Within 6 feet of an electrical outlet.
- If we need to use an extension cord, we will supply it!
